About Hwell

Chaozhou Xin Hwell Ceramic Technology Co.,Ltd was founded in 2010, it is an enterprise specializing in the research and development, sales and service of smart toilets and smart toilet seats, locates in Chaozhou city and currently has two factories.

The company covers a total area of 25,000 square meters and has 150 employees. The first factory is office area, showroom, smart cover assembly and testing area, smart cover warehouse, laboratory and development area. The second factory is the cover production area, raw material area, ceramic warehouse, complete machine testing area, packaging area, and loading area.

Reception desk

Environment

Hwell's office area is divided into reception office, documentary office, after-sales office, production office, domestic sales office, and international sales office.

The reception desk is provided for customers who visit the factory, and the staff in the documentary office are responsible for following up on the production and arrangement of orders. The after-sales office is responsible for customer feedback and problem solving. The production office is responsible for arranging daily product quantity inspection and data statistics.
